

Complex data made easy in a single place

We help businesses to connect and manage data from diverse systems, third parties and any other data source to have a single source of truth.

actesy is an end-to-end digitalization solution based in St. Gallen, Switzerland. It was founded in August 2017 and was publicly launched in August 2018 after one year in stealth mode. The company's name was chosen as a combination of the words «act» & «easy» – so just act easy.

actesy makes complex data easy

We all know the challenge with different business systems, data bases and processes: they all have different standards and collaboration between them is nearly impossible. With actesy, these challenges are gone. actesy is your travel adapter for IT and allows any system and data base to collaborate immediately. With our solution you can easily plug-and-play legacy systems, CRM, ERP or any other thinkable system together. Moreover, actesy is the only end-to-end digitalization tool on the market, which allows you to serve all your needs from one solution. The technology is proven in many lighthouse projects and many partners are trusting actesy's technology.

Your trusted IT experts

Our 30+ year expertise in data management, system architecture and product management has resulted in big savings for our clients. This comes on top of additional benefits, such as better decision-making or reliable and trustworthy data with modest efforts. Our solutions have a proven track record of innovation and efficiency creation within their organizations.

actesy data platform

- Plug-and-Play system integrations
- Normalized and individual data model for cross-system collaboration
- Cross-system process modeler
- Automated and robotics-led processes incl. AI
- Documentation of all data and processes in one place for all systems

Simplify your life

With actesy you will be able to extract meaningful insights from data, identify areas for improvement, save time for more value-added tasks – all with an easy-to-use, turnkey solution – our fully customizable actesy platform. Our platform allows you to create automatic reports and delivery, test processes and create borderless data access through the cross-platform data management.

«actesy – complex data made easy. We enable you to focus on tasks that matter and draw meaningful insights from your data.»
